Benton Habitat for Humanity builds affordable and sustainable homes and empowers families through successful home ownership. Habitat is one of the only organizations in our area that **offers home ownership opportunities** to hardworking, low-income families making between 30% and 60% of Benton County's median income. We do this by mobilizing the community and a hand-up model in which the homeowner helps to build and then buys their home with a low interest Habitat mortgage.

Additionally, Habitat offers a critical **home repair program to low-income homeowners**, using the same low interest loan and "sweat-equity" model. Mortgage and loan payments to Habitat are used to help build and repair more homes with deserving families, creating a sustainable, revolving fund. Instead of being in a vulnerable and fragile economic position, Habitat families find themselves in a position of strength.

Benton Habitat for Humanity **ReStore raises funds that help build homes** for families in Benton County. Proceeds come from selling donated building materials, appliances, furniture, and other home improvement products to the public.

*As a volunteer, you can be a part of bringing people together to make decent homes achievable for everyone in our community!*
